OUR MISSION

The Project aims at upskilling hearing impaired parents or parents having hearing impaired children.

This project has been funded with support from the European Commission. This material reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

OUR TARGETS

- To make hearing impaired people aware of the role of stories and sport in bringing up and educating children;
- To make non-hearing impaired children realize special needs of hearing impaired people;
- Modern and modernist opportunities to develop hearing impaired children's ability to get stories and comprehend its context;
- To make effects and final products of the project understood in order to realize the best application.

OUTCOMES OF PROJECT

- Professional support group for parents having children with hearing loss.
- Educational and sportive activities with parents having children with hearing loss.
- Project web-site.
- 4 international Project meeting.
- International mobility of 24 professional working with parents and families of children with hearing loss.
- Seminars about bringing up and educating of children with hearing loss
- Stories adapted for children with hearing loss.
- Online library and educational materials consisting of DVDs for both children with hearing loss and other children.
